It is at 79 Avenue des Champs Elysées that a new page of Parisian nights is being written.

After several weeks of work, the **Queen Nightclub** takes possession of its new setting from 1st September.

New place, new design

Designed by the studio **FFD**, led by **Francois Frossard** who performed many legendary clubs around the world (including the Mansion, SET, the Liv, all located in Miami), Queen Nightclub is transformed and becomes the best club of the capital.

The nightclub is now spans over 1,200 m² and offers exclusive spaces that showcases design.

Central element of the club, the DJ booth, consists of a smoked mirror, will be suspended in the air like a ship's prow.

Taking these set pieces, the "square" are defined by glass and brass railings.

The bar, located at Club center, is framed by a huge mirror, taking the baroque Venetian mirrors.

To live a more exclusive experience, the Queen Nightclub also offers a fully privatized rotunda designed like a real hotel suite, decorated with thousands of beveled mirrors on the walls and decorated with benches in a semicircle in beige python, it can accommodate up to 50 privileged who will live a unique clubbing moment.

The sound and lighting have been completely redesigned in order to live the most beautiful Parisian nights, the sound of the greatest artists and Djs of the international scene.
